PRICE ONE CENT.

Analysis by Dr. A. Voelcker, F. R. S., Consulting Chemist Royal Agricultural Society, England, shows only a trace of nitrates in Blackwell's Bull Durham Tobacco. The soil of the Golden Belt of North Carolina, in which this tobacco is grown, don't supply nitrates to the leaf. That is the secret of its delicious mildness. Nothing so pure and luxurious for smoking. Don't forget the brand. None genuine without the trade-mark of the Bull. All dealers have it.

CHIMES FROM CHICAGO.

Various Candidates Tuning Their Doleful Harps

Whose Mournful Music Will Increase in Volume and Plaintiveness as the Hour of Defeat Draws Near.

CHICAGO, May 31.—Arthur's headquar-ters were opened this morning in the gen-tleman's parlor of the Grand Pacific, with Postmaster Taft, of Charleston, S. C., in

Judge Foraker heads the advance guard of Shermanites, and is industriously giving vent to the opinion that Blaine is materially weakening in Ohio.

Blaine's headquarters at the Grand Pacific are crowded. There was a heavy list of arrivals at the

leading hotels this morning, including several South Carolina and Fennsylvania del-Chauncy T. Filley, of St. Louis, com-

menced immediately upon his arrival to work up a Logan boom.

Silas B. Dutcher, of Brooklyn, is working for Edmunds, with Logan as second Hon. Galusha A. Grow, of Pennsylvania,

is working hard for Blaine. It is said in well informed cincles that at to-morrow's meeting of the National Committee, action will be taken looking to

DROPPING THE LOWEST CANDIDATE the purpose of securing some recognition in the nomination of the convention officers. An effort will also be made to lay wires for giving the South the candidate for Vice President.

STEPHEN B. ELKINS,

of New York, and a member of the National Republican Committee from New Mexico, is a large mine owner of Santa Fe, the business partner of James G. Blaine in many mining enterprises, and the head and manager of the "Blaine boom," To a reporter Mr. Etkins said:

"We enter on the campaign with more

HOPE OF NOMINATING BLAINE Than we have had at any convention yet. We claim from 335 to 340 votes for him on the first ballot, and think that figure an underestimate rather than an exaggeration. New York will give him twenty-nine votes sure on the first ballot, and probably some of the fourteen Edmunds votes that Roosevelt, Curtis, et al., are talking so much about at present. We also expect to get at least thirty-six votes from Illinois that are now put down to Logan, and, alto-

votes for Gresham, Hawley, or some one other than Blaine or Arthur!"

"I know they say so, but they can't do it. Globe, Angle and Check Valves water and Steam Gauges, Force and Lift Pumps, Rubber Hose, Chandellers, Brackets and Globes. > IN NEW YORK, FOR INSTANCE, Blaine will get twenty-nine votes, and they come from the Republican part of the State, the part that gives three-quarters of the Republican vote of the State. Arthur's supporters, on the other hand, live in the Democratic strongholds. So throughout

"He can come nearer to it than Arthur, and we think him a much stronger candi-

date in that State." STILL HUNT.

The friends of President Arthur in this city are on a still hunt, and are covering up their tracks even more carefully than Logan's managers are doing. They have beadquarters at the Palmer House. The talk of

GRESHAM AS A COMPROMISE Candidate was continued in local circles, especially with the custom house, and some of the political wiseacres who are now conregating about the hotels claimed to know or certain that a Gresham boom was in course of incubation, to be sprung on the convention the moment that the impossibility of nominating Arthur was demonstrated, for the purpose of defeating Blame, Logan, and other caudidates whom the

present administration does not control.

HOT SHOT FROM BELVA. CHICAGO, May 31,-Mrs. Belva A. Lockwood, the well known Washington lawyer, arrived last evening. Her object in attending the convention is to urge the insertion of a plank in the platform favoring arbitration. She will go before the com-Hamburg, Hoslery, Gloves, Jerseys and all seasonable staple and fancy Dry Goods at bottom prices. Bleach, Brown and Tobacco Cottons a specialty.

To-night she will'lecture on "The American Statesman

and his Shortcornings, or WHO SHOULD BE PRESIDENT."

Mrs. Lockwood said that in her lecture she would delineate the ideal president; picture the shortcomings of the candidates now prominently mentioned and expose the dif-Third street, east of Limestone, (Powell's old stand), Maysville, Ky. Third street, east of Limestone, (Powell's old stand), Maysville, Ky. Highest market price hold by the candidates. Tilden and Blaine, as they appear to her to be the most prominent candidates of the two parties, will be criticized particularly. The cypher dispute the carposed and

Arthur, Edmunds, Logan, Flower and Bay-ord will also be dealt with. She was in THE GREENBACK TICKET favor, she said, of Logan's nomination, though she was not oppo ed to Butier. If the Democrats nominated Butier she firmly believed ne would be elected. It was a good joke, she said, on the Democrats, who, four years ago, adopted a resolution com-mending Tilden's wise judgment in retiring from public life, and who now propose to nominate him.

Speaking of the collapse of the firm of Grant & Ward, she said it was

A STRANGE SIGHT TO SEE The four Grants, who drew in the aggregate \$100,000 a year from the firm, now placing the blame on young Ward, the junior member of the establishment. If the Grants did not know the condition of their firm they were culpably negligent, and if they were aware of it, then they were criminally negligent.

Tired of Life.

CINCINNATI, May 31.-George S. Hincklay, of Dayton, Ohio, was found dead in Spring Grove Cemetery this morning by Charles F. Dodd and Mrs. Maddock, who were strolling about the grounds. He had evidently suicided by morphine. The following note was found in his pocket:

"Whoever finds this body will do the deceased a great favor by giving it to a medical college; or if too much decomposed, by burying it where it lies, for I have no money nor friends. There is no use of spending money. Life has been a failure with me. I would like to write more, but my heart is too sad for utterance. Please

oblige me with this small favor.' Hinckley worked for Vanausdall & Garmon there as a carpet cutter. A little more than three weeks ago became to Cincinnati After each ballot. The Southern delegates Doepke's as carpet cutter. He was there last Saturday evening, when he asked leave of absence to visit his home in Dayton. He was last seen at his boarding-kouse, 14 West Ninth street, Monday morning. He had not the appearance of a drinking man, yet sometimes went on a spree. His domestic relations, so far as known, were pleasant.

Will of Charles O'Conor. NANTUCKET, Mass., May 3L.—Charles O'Conor's will bequeaths to the New York Law Institute all bound volumes in his library marked "My Opinions," and all those marked "My Own Cases," \$20,000 in money and two silver testimonials. To Mrs. Elizabeth W. Johnson, Miss Folger, Rose Brayton and Miss Isabella Chaffin, \$10,000 each. To the last named, his house and lot in Nantucket. To Anna Ross, \$5,000. After minor bequests, he divides the residue of his estate: two-thirds to his sister, Eliza Margaret Sloane, the remaining third to Miss Julia Pardon Mullany, Charles W. Sloane and Thomas O'Conor Sloane are appeared to the state of pointed executors. In a codicil, his law books in charge of Whitehead.

Fires.

BROOKLYN, N. Y., May 31.-The extensive sash and blind factory of Richard Whipple, Nos. 20 and 23 Berger street with contents, was entirely destroyed by fire this morning. Loss on building \$8,000; insured. Loss on stock \$25,000; insured for \$14,000.

HALF A BLOCK SWEPT AWAY.

PORTLAND, Ore., May 31.-Fire yesterday destroyed a number of wooden buildings here. Over half a block was swept away, very little being saved. The loss will exceed \$50,000. The insurance is about half the loss. The fire is attributed to an incendiary.

CHICAGO, May 31. - A telephone message from the extreme western suburbs at noon says the shops of the Chicago & Northvestern Railroad are on fire. Extent of conflagration not yet known.

"mwich, Conn., May 31.-The Allen mill burned this morning. Loss \$30,000; fully insured.

Hanged by the Wayside.

PORTLAND, Ore., May 31.-The body of day near the town of Pendleton, hanging by the neck. A large placard attached to the body bore the significant words "Here's a thief." The victim was a total stranger in that section. There was every indication that the murdered had been hanged by vigilantes. That portion of eastern Oregon has been infested lately by roving bands of cattle and horse thieves. The citizens have organized and determined to clear the country of roughs, cut-throats, and thieves. The man evidently had been caught in the act of stealing and made a summary example of. The whole country feigns ignorance of how the fellow came to his death.

Two Hangings.

LITTLE ROCK, May 31,-Jim Tucker, colored, was hanged at Paris, Logan County, for the murder of a companion named Aaron Baker, December 27, 1883. He kille ! his victim while he was asleep with a double-barreled shotgun, after which he robbed him.

HENRY BROWN,

BELLEVILLE, Ill., May 31. - Henry Brown olored, was hanged here for the murder, robbery and cremation of a peddler near Cahokia, February 26. He profissed reigion on the gallows.

Brown met his fate with fortitude. There

were present only reporters from St. Louis, the officials, and twelve citizens, comprising the jury. Brown spent the whole of yesterday with his wife, who is in jail for complicity in his crime.

A New Monopoly.

SAN FRANCISCO, May 31 .- Another monopoly has sprung into existence through a combination of powder manufacturers and acid works. The combination consists of the Giant, the California, the Safety Nitro, the Vulcan and the Vigorite Powder companies. Six acid works have signed an agreement for five years. The purpose is to advance the prices of powder from fifty to seventy-five per cent. A new schedule goes into effect June 1. The great danger and excessive cost of transportation are likely to leave the new monopoly a clear field, even at its new exorbitant schedule of

Tabors of the Greenback Labor National Convention Closed.

Butler, of Massachusetts, and West, of Mississippi, the Nominees-A Platform That Speaks for Itself.

INDIANAPOLIS, May 31.—The Greenback National Convention has wound up its labors and dispersed. The Committee on Resolutions failed to agree, George O. Jones, of New York, and Mr. Blanchard, of Michigan, each presenting resolutions of their own. The majority report of the committee embodied the following platform, which was adopted:

the Supreme Court of the legal tender question to be a full vindication of the theory which this party has always advocated on the right and authority of Con-

gress over the issue of legal tender notes. "We demand the substitution of greenbacks for national bank notes, and the prompt payment of the public debt; we want the money which saved our country in time of war, and which has given it prosperity and happiness in peace. We condemn the retirement of fractional currency and small denominations of greenbacks.

"Second-We denounce as dangerous to our republican institutions those methods and politics of the Democratic and Republican parties which have sauctioned or permitted the establishment of land railroad, money and other gigantic convorate monopolies, and we demand such governmental action as may be necessary to take from such monopolies the power thay have so corruptly and unjustly usurped, and restore them to the people to whom they be-

Third—The public lands being the natural inheritance of the people, we denounce that policy which has granted to corporations vast tracts of lands, and we demand that immediate and vigorous measures be taken to reclaim from such corporations, f r the people's use and benefit, all such land grants as have been forfeited by reason of non-fulfillment of contract, or that may have been wrongfully acquired by corrupt legislation, and such railroad lambs and other public domains be hen eforth held as a sacred trust, to be granted only to actual settlers in limited quantities, and we demand that a lien ownership of land individual or corporate, shall be probibited.

"Fourth-We demand Congressional regulation of inter-State commerce; we denounce 'pooling,' stock watering, and discrimination in rates and charges, and that ment of a government postal telegraph sys-

"Fifth-All private property, all form of money obligations to pay money should bear their just proportion of public taxes. We demand a graduated income tax.

"sixth-We demand an amelioration of the condition of labor by enforcing sanitary | Gen. John B. Gordon. law in industrial establishments; by the abolition of the convict labor question; by the rigid inspection of mines and factories; by the reduction of the hours of labor in industrial establishments; by fostering of educational institutions, and by abolishing child labor.

"Seventh-We condemn all importations of contracted labor made with a view of reducing to starvation wages the working men of this country, and we demand laws for its prevention.

"Eighth-We insist upon a constitutional amendment reducing the terms of office of

Inited States Senators. 'Ninth-We demand such rules for the government of Congress as shall place all representatives of the people upon an equal footing, and take away from committees a veto power greater than that of Presi-

dent. "Tenth-While we favor a wise revision an unknown man was discovered yester- of the tariff laws with a view of raising revenue from luxuries rather than from necessaries, we insist that as an economic question its importance is insignificant as compared with the financial issues. For

"Eleventh-For the purpose of testing the sense of the people upon the subject, we are in favor of submitting to a vote of the people an amendment to the Constitution in favor of suffrage regardless of sex and also on the subject of the liquor traffic.

"Twelfth-All disabled soldiers of the late war should be equitably pensioned, and we denounce the policy of keeping a small army of officeholders, whose only business is to prevent, on technical grounds, deserving soldiers from obtaining justice from the Government they helped to save." The names of Benjamin F. Butler, of Massachusetts, Jesse Harper, of Illinois Thomas A. Armstrong, of Pennsylvania. and David Davis, of Illinois, were placed in nomination. George O. Jones objected to Butler in an energetic speech, charging that in 1976 Butler voted for Hayes, a Republican, and in 1880 he both worked and voted for Hancock, a Democrat. Now he called himself a Greenbacker. What he wanted was, to nominate a man who is a

Greenbacker first, last and all the time. Jones was loudly hissed. Mr. Armstrong refused to allow his name to be used as a

candidate, A ballot was then taken, which resulted in the nomination of Butler, who received 319 votes out of 426. Harper received 99, the following States voting for him: Alabama, California, and Florida, one each; Georgia 4, Illinois 7, Indiana 4, Iowa 1, Kentucky 14, Maine 7, Maryland 2, Mis-gouri 6, Nebraska 1, New Hampshire 1, New York 2, North Carolina 1, Ohio 32, Pennsylvania 8, Tennessee I, Texas 2, Virginia

and the District of Columbia 1. The rules were then suspended, and General A. M. West, of Mississippi, was nom-inated Vice President by acclamation.

FRIGHTFUL ACCIDENT.

Forty-Nine Men Crushed to Death in a Falling Building.

BALTIMORE, May 3. - The building at 37 South Gay street, occupied by William E. Hooper & Sons, cotton merchants, and Lang & Dugdale, fertilizers, was completely demolished by a boiler explosion this afternoon. Fifty employes were in the building at the time and one man only escaped, who is now lodged in a window, and the firemen are engaged in cutting him

The building is a complete wreck, and is filled with arms, heads and limbs of the unfortunate victims. Firemen are how working removing the debris and bodies. There is great excitement about the city, "First-That we hold the late decision of and the scenes at the building are heartrendering.

Building Their Own Crematory.

LANCASTER, Pa., May 31.—The Lancaster Cremation Association now say their project for building a crematory is an assured success. Twenty-two gentlemen have subscribed to the stock and if the rest is not taken by Saturday the present stockholders will take the balance. It is understood that those subscribing to the stock will give practical illustration of their belief in incineration by agreeing that their bodies shall be burned. W. U. Hensel, Chairman of the Democratic State Committee; H. Clay Brubaker, ex-District Attorny of Lancaster County; C. A. Heinitsh, one of our oldest and best known druggists George K. Reed, a wealthy banker; J. P. Mc askey, principal of the Boys' High School of Lancaster; J. L. Lyte, business manager of the Examiner, and others equally prominent are taking an active part in the movement.

Another Rebellion Threatened.

WASHINGTON, May 31.-The Commissioner of Internal Revenue has received a letter from Williamsville, N. Y., signed by

Martin Schneider, saying: The farmers will give you another week to decide whether you will permit us to distil in small quantities or not; if not, we will distil you in spite of you and the Government. We want you distinctly understand that we will not submit to this extortion which is a terrible outrage and should be resisted morally and physicany. The farmers are excited and are determined to have their own way in this matter. Be wise and answer at once to avoid a terrible calamity.

Coal Mine Closed. STEVENSON, Ala., May Sl.-U. S. Grant, jr., and the firm of Grant & Ward are the nephew, Thomas Sloane, jr., is bequeathed Congress shall correct these abuses. Even chief stockholders of the Belmont coal all his historical, political and religious if necessary by the construction of national mines, which are situated in this (Jackson) works. Millie R. Lamberton is given all railroads. We also demand the establishment of the country. The mines have continued in full operation since their failure until ye-terday, when work was stopped and a notice was posted that it had shut down on account of the failure of Grant & Ward. Several hundred hands are thrown out of employment. The mines are quite valuable and were pur based by the Grants from

Of No Significance.

NEW YORK, May 31.-United States Marshal Erhardt and four subordinates were noticed in the Fifth Avenue Hotel shortly after the President's arrival. This gave rise to a sensational rumor to the effect that they had been ordered there on special luty for some mysterious purpose. shal Ernardt said that the men had not been ordered to the place and had probably come as any private citizen would to a central point.

A Disastrous Wreck.

CLEVELAND, Tenn., May 31 -A very disastrous wreck occurred on the E., T. V. & G. Railr ad near here last night. The north-bound New York Express train struck a box car which had been blown from a side track to the main line. The engine and mail car were demolished. Eugineer Grant in attempting to jump was caught between the engine and tender and fatally crushed. Fireman Clark was badly injured.

Riddle's Blind Pool.

PITTSBURG, May 31.-An intimate friend of George W. Rowley, individual bookkeeper of the Penn Bank, for him made a statement to-day that the checks of D. Wilson & Co., Hill & Co., and Watson & Co., the mythical firms, were drawn and signed by President Riddle, and that the latter represented all these firms.

A blind pool lost over \$4,000,000 in oil. and the overdrafts on the bank aggregate \$1,300,000.

Fifteen Hundred Out.

PITTSBURG, May 31.-Oliver Brothers' Tenth-street mill is indefinitely closed for lack of orders. About one thousand men are thrown out of employment. Chess, Cook & Co. have closed the pud-
